Re: Vaccination Update COVID-19

Finlandia Village is working hard to make sure all of the Residents are staying safe, please see the below updates:

- A date for vaccinating Residents within the greater Village (Finlandiakoti, Palvelukoti, Rivitalo, Majatalo & Lepokoti) has NOT been confirmed by Public Health Sudbury District (PHSD).
- PHSD has confirmed that a vaccination clinic will be held on site at Finlandia Village for Residents in the coming weeks. They do NOT advise residents to pre-register for the lottery that is being held.
- Finlandia Village is working closely with PHSD to ensure we are prepared for when the vaccine does arrive. Please be patient and we appreciate all of your calls and inquiries. As soon as we know more information about a tentative vaccine date we will let you know.
- Good news, Hoivakoti Nursing Home Residents received their 2nd vaccination on March 8th under the direction of PHSD.
- Finlandia Village has no active COVID-19 cases with Residents or staff and all previous COVID-19 cases have been resolved.
- On March 8th the Sudbury area moved into the Red-Control level of provincial COVID-19 response framework, please see the below link from PHSD for guidelines.

<https://www.phsd.ca/public-health-sudbury-districts-requires-additional-protective-measures-as-area-moves-into-red-control-level-of-provincial-covid-19-response-framework/>
